EDUCATIONAL BACKGROUND

Bachelor of Science in Computer Science – Jinnah University for Women (2020–2023)
Intermediate in Pre-Engineering – Government College for Women, Sharah-e-Liaquat (2018–2019)
Matriculation in Science – St. Matthias School (2016–2017)

WORK EXPERIENCE

Front-End Developer Intern—Civil Aviation Authority
Mar 2024 – Apr 2024

- Collaborated with a cross-functional IT team to design, prototype, and develop responsive web applications using Figma, Adobe XD, and Sketch.
- Created user-friendly interfaces that improved accessibility and reduced navigation time for internal staff by simplifying workflows.
- Assisted in implementing UI/UX best practices, ensuring consistency in typography, color schemes, and layout.
- Supported the testing and debugging of front-end features, improving overall application stability and usability.
- Documented design processes and presented prototypes, strengthening collaboration between designers and developers.

PROJECTS

Musea App

- Designed and prototyped a music streaming platform with voice-based search, live lyrics, and artist-centered recommendations.
- Enhanced personalization and user engagement through interactive design features.

Schedulink

- Built a clean, responsive UI in Figma for a class scheduling app.
- Integrated timetable view, notifications, and simplified navigation, improving student usability.

WeForU

- Designed a digital support platform for anonymous sharing and counseling.
- Created a safe, empathetic, and intuitive user experience for sensitive issues like mental health and domestic violence.

FYP Management System

- Designed a web-based interface for final-year project management.
- Optimized project tracking and submission process, increasing efficiency for both students and faculty.

CORE SKILLS

- Design Tools: Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator, Canva
- Technical Skills: HTML, CSS, JavaScript (basic), Flutter (basic)
- Soft Skills: Teamwork, Creative Thinking, Problem-Solving

CERTIFICATIONS

- Graphics Designing and Freelancing (DigiSkills).
- WIC (Women in Computing) certificate
- JTECH participant certificate
